Mirpur 1, Dhaka

Profile

Aspiring Full-Stack Web Developer with experience in Next.js and Django, and proficiency in React, TypeScript, tRPC, Tailwind, and related technologies. Committed to creating dynamic, user-friendly web applications that merge backend expertise with polished front-end interfaces. A continuous learner dedicated to staying up-to-date with industry trends to drive innovation.

Language

- English (Professional proficiency)
- Bangla (Native)

Qualities

- Quick learner
- Team worker
- Creative thinker
- Attention to detail
- Resilient

Education

B.Sc. in Software Engineering

Daffodil International University

CGPA: 3.71

2024

HSC

Government Science College

GPA: 4.33

2019

SSC

United Islamia Govt. High School

GPA: 5.00

2017

Experience

Freelance Developer

2023 – 2024

- Developed diverse full-stack applications as both a solo developer and team collaborator
- Created e-commerce platforms, institutional web portals, single-page applications (SPAs), and static/SSG websites
- Utilized a range of modern technologies including Next.js, Django, and Astro

Technical Skills

Programming Languages and Software Design

- Proficient in JavaScript, TypeScript, Python, Java, HTML, and CSS
- Well-versed in prominent programming paradigms such as Procedural, Object-Oriented, and Functional Programming
- Familiar with applying common design patterns to create maintainable and scalable software solutions
- Skilled in designing and implementing software architectures that address scalability, maintainability, and performance considerations

Full Stack Development

- Skilled in creating high-performance web applications using Next.js, optimizing for speed and user experience
- Proficient in developing web applications using the MVC pattern with Django
- Experienced in designing clean and responsive user interfaces with React & Tailwind CSS
- Proficient in performing database operations using ORM tools like Prisma
- Capable of developing RESTful and tRPC APIs for seamless frontend-backend integration

DevOps & Version Control

- Experienced at utilizing Git for version control, including branching, merging, and collaborating with distributed development teams
- Proficient in containerization using Docker, ensuring consistency and portability across different environments
- Skilled in implementing and managing continuous integration and continuous deployment (CI/CD) pipelines, automating testing, building, and deployment processes
- Proficient in Linux-based environments, including system administration, shell scripting, and command-line utilities for streamlined development and deployment
